

Houghton County Road Commission  
Flood Recovery Update  
November 29, 2018

The Houghton County Road Commission (HCRC) would like to thank everyone for their patience as we continue to recover/repair the road network.

As of today only four road locations remain closed to traffic. They are Paradise Road (at Pilgrim River), Lower Forsman Road (at M-26), Old Mill Road and Houghton Canal Road (at Oscar Bay). Paradise Road, Old Mill Hill and Lower Forsman Road will remain closed until next summer. Houghton Canal Road at Oscar Bay is on schedule to be open to traffic the second week of December.

All though several roads are now open to traffic please proceed with caution through the construction sites as final paving repairs could not be done due to the weather and will not be completed until the spring.

We are currently working with Legislators to secure funding to help pay the \$4.5 million matching funds required to complete all the repairs from the Father's Day Flood event.

Once again thank you for your patience as we continue to recover/repair the roadways.
